### d'Arenberg The Stump Jump Range - McLaren Vale,

The name 'Stump Jump' doesn't relate to the English game of cricket (jumping over the stumps at the end of the game), nor the breeding of livestock held in the stumps but relates to the significant South Australian invention – the Stump Jump plough. The plough soon became a worldwide implement for ploughing fields because of its ability to ride over stumps and gnarled "mallee" Eucalypt roots and snags, saving valuable time and resources by not stopping the draught horse.

### The Dead Arm Shiraz is one of the flagship wines at d'Arenberg.

Dead Arm is a vine disease caused by the fungus Eutypa Lata that randomly affects vineyards all over the world. Often vines affected are severely pruned or replanted. One half, or an 'arm' of the vine slowly becomes reduced to dead wood. That side may be lifeless & brittle, but the grapes on the other 'arm' survive to make wines that display the most amazing intensity due to the lower overall vine yield.

This wine is truly spectacular with its bold & complex flavour profile.
